CREW AND VISITOR TEMPERATURE CHECKLIST - COVID-19

Vessel Name:

Captain:

Safety Tip: *When checking someone's temperature wear your PPE; gloves & a mask. Remember to sanitize yourself & thermometer.*

The captain or vessel owner can use this document to record the temperature of crew and essential visitors each time they board the vessel. If a crew member or visitor displays a temperature of **38.1°C** or higher they must return home & self isolate. If they display symptoms such as: fever, new cough or a cough that is getting worse, sore throat, runny nose and headache instruct them to return home, self-isolate & call 811 for assessment. For more information visit novascotia.ca/coronavirus
